FREDERICK COUNTY FIRE AND RESCUE UPDATE:

DFRS will be attending NAC meetings and providing an update similar to the police update and will focus on things that they are seeing in the particular NAC area. Kenny Poole from DFRS was on hand to talk about what is going on in fire and rescue. Kenny told residents that there will be DFRS mass casualty training at the Marc Train Station on East Street so they may see additional equipment in the area over the next couple of weeks.

PLANNING

Project Name: Corporate Press, Inc.
Case Number: STF15-112FSI
Location: 500 Monocacy Blvd.
COF Staff: Brandon Mark 301-600-1770
Applicant: Mark Crissman
Description: The Applicant, Service Glass Industries, has proposed a minor site plan for the construction of a new access drive and an above ground fuel storage tank.

GUEST SPEAKERS:

Malcom Furgol – United Way 301-663-4231

Malcom was on hand to talk to residents about the United Way and different programs that they offer. He said that they offer tax preparation services, works with local non-profits, financial counseling, etc. United Way is also hosting the Summer Serve program for youth ages 12-17, which incorporates volunteer service projects at various nonprofit agencies throughout Frederick County. For more information please contact: 629 North Market Street, Frederick, MD 21701 (301) 663-4231

Jenny Willoughby – City of Frederick Sustainability Manager 301-600-2843

Jenny was on hand to talk about the sustainability plan for The City of Frederick. Frederick is committed to sustainability for everyone who lives, works, and plays in the City. With participation from businesses, residents, and government, we will create a City that is resilient at its core and periphery and will become a sustainability model for the region.

This plan is the City’s framework to tackle challenges and prioritize policies and actions that will guide Frederick toward a more sustainable future. The policies and actions suggested in this plan will help the City provide access to transportation, healthy food, educational and cultural resources, green spaces, clean air and water to residents and businesses.

What is sustainability?

Sustainability means maintaining balance between economic, social, and ecological needs for today and for future generations. Each of these will be addressed within the eight sectors of this plan. Sustainable choices today will help facilitate healthy residents, healthy communities, and a healthy environment now and into the future.

What does sustainability mean for you?

A sustainable city benefits everyone by providing better transportation, buildings, neighborhoods, parks, and healthy places to work and live. The City is working toward becoming a more sustainable community by:

- Supporting a strong, local economy with better access to jobs, services, and amenities
- Encouraging healthier lifestyles by providing alternative transportation options and access to nutritious food choices
- Leading the way in more efficient and renewable energy and fuels to reduce costs and our carbon footprint
- Protecting water quality and green spaces while encouraging smart development
- Designing communities such that all levels of income are supported with adequate services and amenities

How do we make it happen?

We can achieve sustainability through a collaborative process. Each of us plays an important part in creating and maintaining a sustainable Frederick. The City government is leading this effort, and residents and private businesses also are essential to achieving these goals. By building partnerships with various committees, interest groups, local and state government, and within City departments, sustainable ideas and actions will filter through projects on every level. This plan outlines actions and policies that could help each of us to become part of the sustainability solution. This Sustainability Master Plan will be evaluated every two years to assess progress on
