

# 7th Street

Denotes Public Comment Location

Consider signal retrofit and retiming, along with marked crosswalks to allow safer pedestrian crossings at 7th/Military

Marked crosswalks could improve pedestrian safety on 7th St.

Traffic calming along 7th to slow speeds and improve ped/bike comfort. Consider traffic circles at intersections to improve cross street movements.

Identify and replace bike "tire-catching" sewer grates along 7th St and other nearby roads

Bike lanes on 7th could improve bicycle comfort and safety, and also discourage vehicles from dangerously passing on the right.

No pedestrian crossing on south approach.

Examine quantity and quality of bike parking at shopping center and provide more if needed.

Regular street cleaning and possible sharrows or warning signs would help bike comfort through underpass.

Interchange ramp terminals on east side difficult for pedestrians and bicycles to cross.

Examine adequacy of pedestrian crosswalks, signal-heads, and pedestrian signal timing.
