JUSTIFICATION FOR VARIANCE

Section 313(c) of the Land Management Code (LMC) states that "The Board may authorize a variance from the density, bulk, or area requirements of Articles 4 and 8. The Board may authorize a variance only when specific findings are made by the Board that:"
(Please respond to each condition statement in the area provided - use additional paper if necessary.)

A. The variance is not contrary to the public interest; and

B. Whereby reason of exceptional narrowness, shallowness, shape, topographical conditions, or other extraordinary situations or conditions peculiar to a specific parcel of property, or of the use of the property or property immediately adjacent, the strict application of the regulations would result in peculiar or unusual practical difficulties to, or exception to, or undue hardship upon, the owner of such property; and

C. The variance requested is the minimum reasonably necessary to overcome the extraordinary or exceptional conditions applicable to the property; and

D. That the literal interpretation of the provisions of the LMC would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of the LMC and would prevent the reasonable use of the property by the applicant; and

E. That granting the variance would not confer on the applicant any special privilege that is denied by the LMC to other lands or structures in the same district; and

F. That the granting of the variance will be in harmony with the general purpose and intent of the LMC, and will not be injurious to the neighborhood or detrimental to the public welfare; and

G. No variance shall be granted in any case where the applicant or their agent has created or caused to be created a situation which would or has necessitated the issuance of a variance for the property to comply with the LMC.

I hereby attest that the information provided on and attached to this application is complete and correct.
