Expected Resources

AP-15 Expected Resources – 91.220(c) (1, 2)

Introduction

The City of Frederick (the "City") is a recipient of HUD'S Emergency Solutions Grant (ESG), however it does not receive HOME Partnership Funds (HOME). The City in its Consolidated Plan has discussed in detail the needs of the homeless and special needs populations such as the elderly and those with HIV/AIDS. The City does receive an annual Housing Opportunities for People with AIDS (HOPWA) award; however due to limited staff to administer this award, it is returned to the State of Maryland Department of Health & Mental Hygiene Office to administer. Therefore, the City will continue to support the activities of any of the local providers of emergency shelter, transitional housing, supportive housing, or public services for these populations.

The City has a good working relationship with the local banking community which is supportive of many public housing and community development efforts. Most of Frederick's private non-profit organizations not only have an independent source of funds, but also seek assistance from private foundations, all of which have the City's support.

Given its limited resources, Frederick will continue to partnerships with other public agencies and private organizations to meet its affordable housing and community development goals and objectives. In general, the City plans to use its CDBG funds as financial incentives to help address its housing an community needs.

Frederick County Coalition for the Homeless Continuum of Care provides supportive services to homeless persons to enable them to make the transition from homeless
